Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Claims 14-26 are pending in this application.

Election/Restrictions

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 14-15 (in part), 17-19 and 20-26 (in part), drawn to Z = pyridine.

Group II, claim(s) 14-15 (in part), 16, 20-26 (in part), drawn to Z = phenyl.

Group III, claim(s) 14-15 (in part) and 23-26 (in part), drawn to Z = other heterocyclic rings.

Group IV, claim(s) 14-15 (in part) and 23-26 (in part), drawn to Z = others.

The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the special technical feature is a pyridine ring and is different from the special technical feature of Groups II-IV. The special technical feature of Group II is a phenyl ring and is different from the special technical feature of Groups I or III-IV. The special technical feature of Group III is other heterocyclic rings and is different from the special technical feature of Groups I-

II or IV. The special technical feature of Group IV others (e.g. H, halogen, cyano, etc.) and is different from the special technical feature of Groups I-III.

If applicants elect Group III or Group IV, applicants have to elect a single disclosed species from the specification.

A telephone call was made to Mr. Eric Thies on Oct. 29, 2008 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

It is recommended that applicants delete claims 24 and 25 that have enablement issues in response to this office action.

Conclusion
